

### **UofL Destination Exploration Summer Camps**

<http://www.uleth.ca/destination-exploration/summer-camps>

403-329-2111

Our week-long art, science and technology camps are full of fun every July and August! Campers will enjoy a variety of hands-on experiments, demonstrations and recreational activities such as swimming. When the weather is nice we will visit the Spray Park and Nicholas Sheran Playground for games and water activities. Campers go on adventures all over campus and often get to participate in faculty led activities in University labs.

Our priority is to make science FUN while we encourage learning, exploration and creativity! For details on all the camps we offer, please view the Camp Brochure on their website.
