At our YMCA summer camps we believe in the power of experiential learning and getting young people outdoors and actively engaged. Camp provides children with the opportunity to develop lasting friendships and learn valuable life skills as we unplug from technology, focus on active play and creative expression. A positive camp experience can be one of the defining moments in a young person's life. In 2017, we had over 1,250 children taking advantage of 8 weeks of camp! We invite you to join us this summer, where children and youth make new friends, learn and grow.
